

The new degree of comfort.™

Air | Gas Furnaces
Model R96V

PERFORMANCE

THAT EXCEEDS EXPECTATIONS

The EcoNet™ Enabled Rheem R96V *Prestige*™ Series Gas Furnace is ENERGY STAR® qualified, offering one of the highest efficiencies available today. Monthly utility bills go down, and you stay comfortable all year long.

Prestige Series Gas Furnace Model R96V

96% AFUE* Efficiency

Premium Comfort

We've improved airflow, which means you get fewer cold spots and better overall indoor air quality during every season.

Maximum Efficiency

A 96% Annual Fuel Utilization Efficiency (AFUE) guarantees this gas furnace makes the most of every drop of fuel.

Exceptional Quality & Reliability

Our *Prestige* Series Gas Furnace is designed with the exclusive PlusOne™ Ignition System, the most reliable system on the market today.

EcoNet™

This innovative technology allows you to control your comfort from home or away.**

INTEGRATED HOME COMFORT

Rheem.com

A 360° Approach... And Then Some

The Rheem R96V *Prestige*™ Series Gas Furnace was designed using our 360°+1 process, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further.

That's 360°+1. And that's why you can count on your gas furnace to bring you and your family years of comfort.

We've Thought of Everything

Industry-first patented features and 360°+1 engineering make the Rheem R96V *Prestige* Series Gas Furnace a smart option. From top to bottom, inside and out, and every angle in between, we've thought of everything to bring you **efficient** and **reliable** indoor comfort.

Enjoy greater comfort and performance thanks to a two-stage operation that offers a more **consistent indoor environment** – keeping cold spots to a minimum. The two-stage heating design primarily operates on low-speed, only temporarily switching to high during peak cold-weather conditions.

Quiet and efficient comfort is what you get with a Rheem *Prestige* Series Gas Furnace. The new patented heat exchanger design provides improved airflow, which reduces operating sound by 20%***. The variable-speed ECM motor also contributes to a quiet, more efficient operation. It's engineered to provide better humidity control while using less power. Overall, this is one of the **quietest furnaces on the market**. And because it's high-efficiency, your monthly energy bill will benefit, too.

Reliability is of the utmost importance when it comes to your home's comfort. Our *Prestige* Series Gas Furnace comes standard with the Rheem-exclusive PlusOne Ignition System. This proven direct spark ignition (DSI) is one of the most reliable ignition systems available today. Used **exclusively by Rheem** in the Heating and Cooling industry, this proven technology is also used on ovens and stoves – appliances that you rely on daily to ignite.

Protect your home with our PlusOne Water Management System. The industry's first blocked drain sensor will shut off your furnace when a drain is blocked, preventing water spillage and potential water damage to your home. All this and one of the **best warranties** in the industry translate to fewer repair bills and more cozy nights at home.

Engineered for High-Performance

- **96% AFUE** – This means maximum efficiency for you, and may qualify you for local and/or utility rebates.
- **Two-Stage Operation** – Provides superior comfort by knowing when to switch into high gear, so there is no need for you to adjust the thermostat.
- **Variable-Speed ECM Motor** – Uses less energy than a single-stage motor. It's engineered for better dehumidification, which provides you with better indoor air quality.

Easy installation and maintenance features benefit consumers, too. This means savings on installation costs and maintenance. The Rheem *Prestige* Series Gas Furnace is designed with PlusOne Diagnostics – our industry-first, 7-segment LED display that makes service calls **quick and easy**.

Reap Savings Through Maximum Efficiency

The R96V Rheem *Prestige* Series Gas Furnace is not only high-performing, it also **saves you energy and money**. A 96% AFUE rating may qualify you for local and/or utility rebates. It's everything you need in a gas furnace – and more.

Energy Savings are a welcome bonus to any heating system. Maximum airflow and a patented heat exchange design mean the Rheem *Prestige* Series Gas Furnace uses fuel efficiently and economically. It gets an ENERGY STAR® rating for maintaining comfortable temperatures while reducing energy consumption and **lowering utility bills**.

Utility Rebates are now widely offered as incentives to **reduce energy consumption** and make responsible use of resources. With a 96% AFUE rating, you may be eligible for a rebate. Visit Rheem.com/rebate to check your state's policy on local utility and municipality rebates, and get ready to reap the rewards of choosing the best for your home.

The R96V *Prestige* Series Gas Furnace is designed to operate with the EcoNet Smart Home System. EcoNet technology combines select Rheem Heating, Cooling and Water Heating solutions into one integrated network so you can effortlessly manage home comfort and energy usage from anywhere with the control center, free mobile app or mobile-friendly web portal.

Why Rheem?

Relationship, Dedication and Innovation

Rheem makes customers our first priority. Our approach as a company is to keep the dialogue ongoing and to listen. Then act. The innovations we've developed throughout the years in both the HVAC and water heating industries are a direct result of that process. And we have a long list of industry firsts to show for it, with more to come. Rheem is dedicated to providing the products your customers need and the opportunities you want to expand your offerings and increase profitability. That's the Rheem 360°+1 approach to partnership.

How to Speak HVAC

What's your stage?

Single-Stage:

One level of operation, with no differentiation between peak or non-peak heating demands.

Two-Stage:

More than one level of operation, which saves energy during non-peak heating demands.

Efficiency:

Description for how effectively incoming energy is converted to outgoing energy. The higher the number, the more efficient the unit – and the lower the operating costs.

AFUE:

Annual Fuel Utilization Efficiency. Used to express the efficiency of gas furnaces. The higher the AFUE rating, the more efficient the unit.

Nice AFUE!

Heat Exchanger:

Responsible for transferring heat from furnace burners to the blower. Rheem uses some of the finest heat exchangers in the industry, offering limited lifetime warranties on some models.

Variable-Speed ECM Motor:

Used in higher-efficiency indoor and outdoor units. Automatically adjusts the flow of warm or cool air in your home for ultimate comfort.

When it's time to upgrade or replace your system, Rheem makes it easy. Our full line of energy-efficient gas furnaces is built for your comfort – helping your family stay the perfect degree of comfortable while saving on energy and maintenance costs. **Visit Rheem.com today to learn more.**

Fort Smith, Arkansas 72903

In keeping with its policy of continuous progress & product improvement, Rheem reserves the right to make changes without notice.

*Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency.

**Purchase and installation of EcoNet™ WiFi Kit and EcoNet Control Center required; WiFi broadband Internet connection required; must be paired with EcoNet Enabled heat pump or air conditioner.

***Testing showed, on average, a 20% reduction in sound when compared to previous Rheem gas furnace models.

†For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local Contractor or go to **Rheem.com** for a copy of the product warranty certificate. Conditional warranties must be registered through **registermyunit.com**.
